Agriculture, Wildlife & Rural Affairs

Chair: Commissioner Tony Hass, Las Animas County
Vice Chair: Commissioner Terry Hofmeister, Phillips County
CCI Staff: Daphne Gervais

SB22-131, Protect Health of Pollinators and People

SB 131 was being brought forward by the People and Pollinators Action Network (PPAN) and would have:

1. Repealed state preemption to authorize local government regulation of pesticide use (excluding use on agricultural and marijuana products)
2. Prohibited the use of certain pesticides on the grounds of a school, preschool, childcare center, or children's resident camp
3. Required the Commissioner of Agriculture to adopt rules designating pesticides that contain neonicotinoid or sulfoximine ingredients as restricted-use
4. Directed the Department of Natural Resources to conduct a study on pollinator decline and health in the state
5. Established a pilot program to provide financial grants to agricultural producers that test the use of noncoated seed-applied systemic insecticide on their crops.

SB 131 was postponed indefinitely by the Senate Agriculture & Natural Resources Committee on a 6-1 vote.

Position: Oppose

Sponsors: Sens. Jaquez Lewis & Priola, Reps. Kipp & Froelich

Final Status: Postponed Indefinitely

General Government

Chair: Commissioner Hilary Cooper, San Miguel County

Vice Chair: Commissioner Scott James, Weld County

CCI Staff: Eric Bergman

HCR22-1001, Statutory Initiative Petition Signature Requirements

HCR22-1001 would have submitted a ballot question to the voters of the state to amend the state constitution to require that any petition for a citizen-initiated statutory change be signed by at least two percent of the registered electors who reside in each state senate district. The concurrent resolution was postponed indefinitely in the House State Affairs Committee.

Position: Support

Sponsors: Rep. Holtorf, Sen. Sonnenberg

Final Status: Postponed Indefinitely

HB22-1037, Option for Retail and Medical Marijuana in Same Location

HB 1037 would allow the operation of a retail marijuana store and a medical marijuana store in the same location, as long as the local licensing authority and local jurisdiction allow it. The store would still be required to physically separate retail and medical marijuana products. The bill is awaiting the Governor's signature.

Position: Support

Sponsors: Reps. Hooton & Van Winkle, Sens. Holbert & Jaquez Lewis

Final Status: Signed by Governor

HB22-1045, Statutory Initiative Petition Signature Requirements

HB 1045 would have made conforming changes to the election statutes had the voters approved the ballot question put forth in HCR22-1001, changing the number of signatures required to put a question on the ballot that involves a statutory change. The bill was postponed indefinitely in the House State Affairs Committee.

Position: Support

Sponsors: Rep. Holtorf, Sen. Sonnenberg

Final Status: Postponed Indefinitely

HB22-1097, County Authority for Dissolution of District

HB 1097 would authorize a board of county commissioners to file an application to dissolve a special district that is defunct or otherwise no longer serving a community purpose. This same authority is already granted in statute to municipalities and regional service authorities. The bill was signed by the Governor last week. This legislation is a CCI Priority for 2022. [CCI has prepared a fact sheet on the bill, available here.](#)

Position: Support (CCI Legislative Priority)

Sponsors: Rep. D. Valdez, Sen. Simpson

Final Status: Signed by Governor

HB22-1135, Marijuana Transporter License Transfers

HB 1135 would allow for transporter licenses to be transferred when a marijuana business is sold. The bill has passed the legislature and is on the Governor's desk awaiting signature.

Position: No Position

Sponsors: Reps. Snyder & Van Winkle, Sens. Holbert & Rodriguez

Final Status: Signed by Governor

HB22-1142, Extended Service Hours Permit

HB 1142 would have created an extended service hours permit that would allow businesses to either serve alcohol until 4 a.m. or begin serving at 5 a.m. (current state law prohibits sales between 2 a.m. and 7 a.m.). Businesses seeking this new permit would have had to get approval from both local and state licensing authorities. The bill was postponed indefinitely at the sponsor's request last week in the House Business Affairs Committee.

Position: Oppose

Sponsor: Rep. Snyder

Final Status: Postponed Indefinitely

HB22-1152, Prohibit Adverse Action for Employee Marijuana Use

As introduced, HB 1152 would prohibit employers (including counties) from taking adverse action against an employee who uses medical marijuana during work hours or uses medical or retail marijuana off the premises during nonwork hours. The bill allows the employer to designate certain positions or groups of employees for whom marijuana use of any kind is still restricted.

CCI opposed the bill based on the fact the state constitution guarantees an employer's right to have a drug-free workplace policy. There are also employer liability concerns because it is very difficult – if not impossible - to test for impairment with marijuana since THC stays in the bloodstream for days or even weeks.

The bill was amended in committee to instead create a task force to study the issue. However, CCI remained opposed to the bill because the amendment language directed the task force to develop a recommendation for how to accommodate medical marijuana users in the workplace in the absence of a reliable test for impairment. The amended bill was postponed indefinitely in committee.

Position: Oppose
Sponsor: Rep. Hooton
Final Status: Postponed Indefinitely

HB22-1300, County License Authority for Massage Establishments

HB 1300 would authorize counties to adopt a licensing program for massage establishments. The bill is the result of a stakeholder process in El Paso County that was convened because of continued problems with sex and human trafficking in illicit massage establishments. The bill places a number of sideboards on the operation of a county licensing program and caps the licensing fee at \$150. The bill was passed by the Senate last week and is headed for the Governor's desk.

Position: Support
Sponsors: Reps. Carver & Daugherty, Sens. Fields & Gardner
Final Status: Awaiting Governor's Signature

HB22-1356, Small Community-Based Nonprofit Grant Program

HB 1356 directs \$35 million in ARPA funds to a new grant program in the Department of Local Affairs to provide assistance to non-profits across the state that have been impacted by the pandemic. The bill requires that the grant moneys be delegated to up to ten regional access partners who will then in turn award grants up to \$100,000 to local non-profits. CCI will be working with the Department of Local Affairs this summer as rubric is developed for the grant application process.

Position: Amend
Sponsors: Reps. Herod & Hooton, Sens. Rankin & Gonzales
Final Status: Awaiting Governor's Signature

HB22-1363, Accountability to Taxpayers Special Districts

HB 1363 would have modified statutory provisions governing metro districts in order to achieve greater transparency and accountability. The bill was heavily amended in committee and then on the floor to narrow the scope of the bill to limit the ability of metro district board members from acquiring interest in the debt that they themselves helped to authorize. The bill was postponed indefinitely.

Position: Monitor
Sponsors: Reps. Weissman & Boesenecker, Sens. Gonzales & Story
Final Status: Postponed Indefinitely

HB22-1367, Updates to Employment Discrimination Laws

HB 1367 amends the Colorado Anti-Discrimination Act to cover individuals in domestic service work. The bill also extends the timeframe to file a claim with the Civil Rights Commission and increases the damages that can be recovered in age discrimination cases.

Position: Monitor

Sponsors: Reps. Lontine & Gray, Sens. Winter & Pettersen

Final Status: Awaiting Governor's Signature

SB22-065, Adjustment to County Coroner Salaries

SB 65 allows for the salaries of the county coroners in Category 2, 3 and 4 counties to be increased up to the same level as the commissioner, clerk, assessor and treasurer, beginning in 2023. The bill allows commissioners in Category 2 counties to opt-out of the salary increase, while Category 3 and 4 counties have the ability to opt into the salary increase if the commissioners agree to it.

Position: Support

Sponsors: Sens. Hisey & Story, Reps. Gray & Will

Final Status: Signed by Governor

SB22-075, County Authority to Dismiss Cemetery Board District Member for Cause

SB 75 authorizes a board of county commissioners to dismiss a cemetery district board member for cause. This authority exists for other types of districts where county commissioners appoint the district boards. This legislation was a CCI Priority for 2022. [CCI has prepared a fact sheet on the bill, available here.](#)

Position: Support (CCI Legislative Priority)

Sponsors: Sen. Simpson, Reps. Catlin & Bird

Final Status: Signed by Governor

SB22-104, Tribal Grant Eligibility

SB 104 would make Native American tribes eligible for new local government grant and benefits programs and commission a study of existing local government grant programs to see if tribes should be eligible.

Position: No Position

Sponsors: Sens. Donovan & Simpson, Rep. McLachlan

Final Status: Awaiting Governor's Signature

SB22-109, Prohibit Labor Actions Against Public Employee

SB 109 would have established that strikes or work stoppages by public employees are not allowed and in the event of one a public employer could file for an injunction and those participating in the strike or work

stoppage may be found in contempt of court. The bill was postponed indefinitely in the Senate State Affairs Committee.

Position: No Position

Sponsors: Sen. Gardner, Rep. Pico

Final Status: Postponed Indefinitely

SB22-120, Regulation of Kratom Processors

SB 120 establishes some minimum standards for the sale of kratom – an herbal extract from Southeast Asia that is used as a stimulant, pain reliever and for treating opioid addiction. The drug, which has no medically-approved uses, has recently come under increased scrutiny by federal and state regulators. The bill establishes that a vendor shall not sell kratom to anyone under 21 years of age. The bill also allows local governments to enact ordinances or resolutions on the sale of kratom that are more stringent than statutory guidelines. Finally, the bill directs the state health department to conduct a study of kratom regulation and issue a report to the General Assembly by January of 2023. Local governments will be included as stakeholders in the study.

Position: Amend

Sponsors: Sens. Coram & Ginal, Rep. Sullivan

Final Status: Awaiting Governor's Signature

SB22-149, Improve Marijuana Industry Regulation

SB 149 would have required additional state regulatory oversight of medical and recreational businesses. The oversight included mandatory compliance checks of sales establishments, additional reporting of licensing violations and the creation of a free searchable online database that showed compliance check records and minor in possession records. The bill required local licensing authorities to report licensing violations to the Marijuana Enforcement Division if they were not already doing so. The bill was postponed indefinitely in the Senate Health and Human Services Committee.

Position: Monitor

Sponsors: Sens. Hansen & Priola, Reps. Amabile & Lynch

Final Status: Postponed Indefinitely

SB22-153, Internal Election Security Measures

SB 153 is comprehensive legislation that makes several changes to election security measures in the wake of recent election security incidents and allegations. The bill clarifies and expands the authority of the Secretary of State (SOS) in overseeing elections, establishes additional security requirements for voting equipment and requires that county and SOS staff receive election training. The bill also creates a new \$1 million grant program to help fund the mandatory local government election security measures in the bill.

Position: Monitor

Sponsors: Sens. Fenberg & Priola, Rep. Lontine

Final Status: Awaiting Governor's Signature

SB22-178, Licensees Ability to Change Marijuana Designation

SB 178 allows medical marijuana grow operations to sell their cannabis to a retail dispensary if the change in designation is approved by the Marijuana Enforcement Division. The bill requires that a grow operation notify the local licensing authority of a change in designation and to remit any applicable local and state excise taxes.

Position: Oppose

Sponsors: Sen. Gonzales, Reps. A. Valdez & Van Winkle

Final Status: Awaiting Governor's Signature

SB22-230, Collective Bargaining for County Employees

SB 230 mandates that county governments must engage in collective bargaining with county employees if they vote to form a bargaining unit. The bill allows for consolidation of bargaining units by the county and states that the bargaining unit cannot call for a strike or work slowdown. The bill also calls for non-binding arbitration for the negotiation of the collective bargaining agreement if the two sides cannot agree. Arbitration/mediation costs are shared by the county and the bargaining unit. The legislation and any collective bargaining agreement created pursuant to it cannot usurp, restrict or duplicate any responsibility or authority granted to counties by the state constitution, state statute or a home rule charter. Counties with a population under 7,500 (as reported in last census count) are exempt from the legislation.

Position: Oppose

Sponsors: Sens. Fenberg & Moreno, Rep. Esgar

Final Status: Awaiting Governor's Signature

115 Years

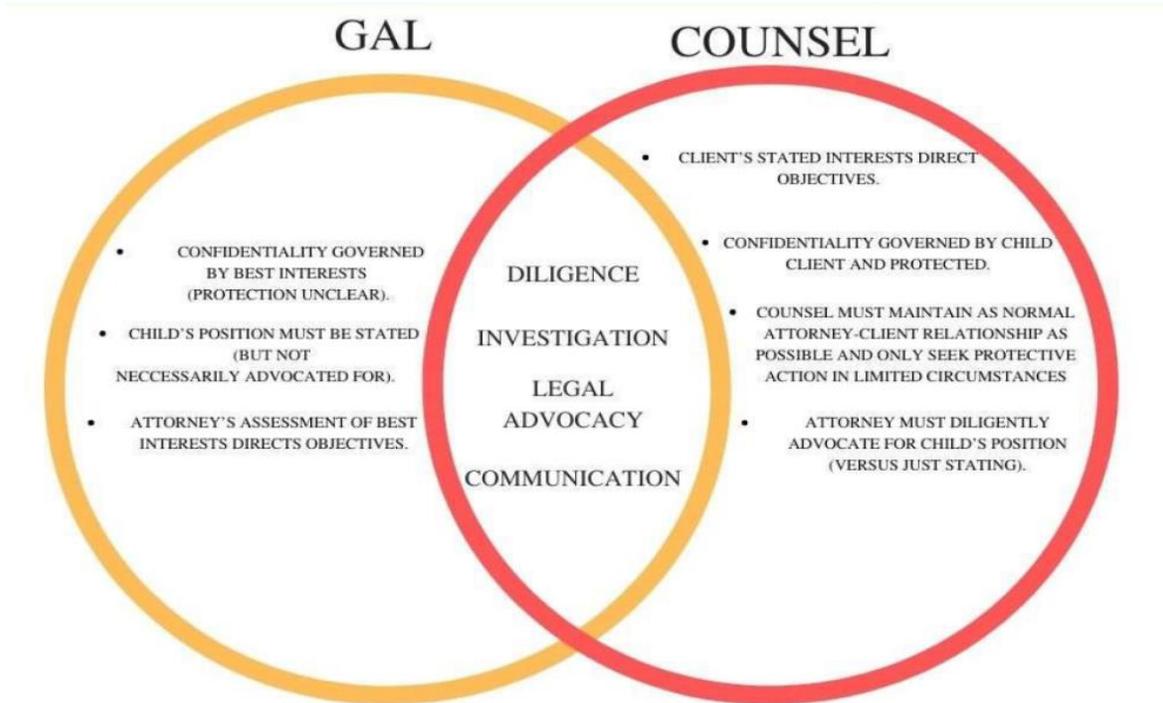

Health & Human Services

Chair: Commissioner Janet Rowland, Mesa County
Vice Chair: Commissioner Wendy Buxton-Andrade, Prowers County
CCI Staff: Gini Pingnot / Kyley Burress / Katie First

HB22-1038, Right to Counsel for Youth

Current law requires the appointment of a guardian ad litem (GAL) for children and youth in dependency and neglect cases in our child welfare system. This bill will require that a youth 12 years of age or older will be appointed a client-directed counsel. This change in the system means a youth 12 years of age or older will be giving an opportunity to express their interests within the legal system the same way an adult does.

Role Differences and Similarities

Position: Monitor
Sponsors: Reps. Daugherty & Van Beber, Sens. Moreno & Gardner
Final Status: Signed by Governor
Staff: Kyley Burress

HB22-1042, Teen Parent Driving Instruction Course

This bill will require the Department of Human Services to reimburse counties for costs paid by the county department to a public or private driving school for teen parents (15–21-year-olds) who are on WIC or within the child welfare system. This bill is essentially adding on to HB21-1084 Drivers' Licenses for Foster Children bill, which was a bill CCI was lead on during the 2021 legislative session.

Amendments were adopted that remove the county completely, you can view the amendment [here](#).

Position: Monitor

Sponsors: Reps. Exum & Van Winkle, Sens. Buckner & Hisey

Final Status: Awaiting Governor's Signature

Staff: Kyley Burress

HB22-1056, Emergency Temporary Care for Children

This bill allows our county departments of human service to enter into an agreement with one or more facilities to provide emergency temporary shelter for children who are neglected and dependent, who are taken into temporary custody, or who have contact with law enforcement and can not return home. "Emergency temporary shelter" is defined in the bill as the temporary care of a child in a physically unrestricted setting for no more than 5 days.

This bill was amended greatly when in committee, amendment [L.001](#), was adopted which is an amendment requested and drafted by counties that focuses on building out the continuum placement options for youth who screen out of detention. We support the amendment because it does the following:

1. The amended bill will offer a short-term placement option that is included in the current screening tool known as the Juvenile Detention Screening and Assessment Guide also know as the JDSAG. This is the screening mechanism used to screen a youth into different settings.
2. The short-term stay, which is up to 5 days, will allow more children and youth to return safely to their families and communities without involving them in another system.
3. After a child has been arrested and assessed, the up to 5 days, allows parents time to make arrangements to come and get their child, or even take a cooling off day or two before getting their child. There is no need to involve these families in child welfare unless the county is ordered to place a child through probation or if abuse and neglect are present. In those circumstances counties are prepared to intervene.

Counties are very supportive of kids getting the supports and services they need with our inappropriately and disproportionately involving them in another system.

Position: Monitor

Sponsor: Rep. Michaelson-Jenet

Final Status: Awaiting Governor's Signature

Staff: Kyley Burress

HB22-1113, Appeal Procedures Dependency and Neglect Cases

In foster care cases when an appeal is pending in a dependency and neglect case, families can be faced with uncertainty because appeal cases can take up to three years if not longer to resolve. This bill is taking recommendation made in 2021 by the child welfare appeals working group and applying them to appeal procedures in dependency and neglect cases in child welfare so that appeals may be done in a timelier manner.

Position: Support

Sponsor: Rep. Van Beber

Final Status: Signed by Governor

Staff: Kyley Burress

HB22-1131, Reduce Justice Involvement for Young Children

Under current law, a child ten years of age or older can be prosecuted and incarcerated for misdemeanors and felonies committed. The bill raises the minimum age a child can be prosecuted in juvenile court from 10 years old to 13 years of age.

A [strike below amendment](#) was added to the bill during second reading that would establish a task force to determine what gaps would exist if 10 to 12 year olds can no longer be prosecuted. The strike below changed the bill completely and some of these changes are:

- The bill creates the Pre-adolescent Services Task Force in the Department of Human services to examine gaps in services for juveniles aged 10-13.
- This is a 32-person task force, with 2 of the members being from County Department of Human Services
- The task force is to meet August 1, 2022- December 2022, with recommendations made by December 31st of 2022.

While we appreciate the concessions the bill sponsors and proponents made by adopting this amendment, counties continue to have concerns on the timeline the task forces meets and the need to have additional county people on the task force. The reason the taskforce is required to meet for such a short period of time is so the bill sponsors can run legislation on the recommendations made by the task force next legislative session. And the reason why we didn't get additional county people on the task force, is the bill sponsors and proponents didn't want a large group and really wanted the conversations to be focused on lived experience.

Position: Amend

Sponsors: Reps. Gonzalez-Gutierrez & Bacon, Sens. Coram & Gonzalez

Final Status: Awaiting Governor's Signature

Staff: Kyley Burress

HB22-1160, Establishing Family Justice Centers

This bill allows a city, a county, or a community based nonprofit organization to build their own family justice centers. Family just centers are to be created to serve victims of domestic violence, sexual assault, elder or child abuse, and human trafficking victims. Currently there are two FJC's in the state, Porchlight in Jefferson and Rose Center in Denver.

Position: Monitor
Sponsor: Rep. Tipper
Final Status: Postponed Indefinitely
Staff: Kiley Burress

HB22-1214, Behavioral Health Crisis Response System

HB 1214 requires all crisis response facilities to provide BOTH substance use treatment and mental health treatment. Currently, mental health centers run crisis services in Colorado. Many provide mental health services but not substance use treatment. This can be a challenge for Coloradoans with suicidal tendencies and a meth addiction, for example. These individuals are typically turned away and redirected to the nearest hospital. HB 1214 also requires crisis facilities to provide services to youth of any age and to those with disabilities.

Current contract requirements for walk-in centers and mobile crisis programs require these facilities to provide both substance use treatment and mental health treatment services. HB 1214 set clear regulatory standards for these facilities to help ensure enforcement.

Position: Support
Sponsors: Reps. Young & Pelton, Sen. Kolker
Final Status: Signed by the Governor
Staff: Gini Pingnot

HB22-1224, Public Benefits Theft

This bill speaks to the timeliness of processing public benefit theft and calculating the amount owed when theft has been determined to have occurred. The bill requires that prosecutors prove that an application misrepresented information on their application. Investigations into fraud are to be completed in 180 days after a referral has been made. This bill is coming forward after the Colorado Supreme Court decided that a mother was criminally liable for the costs of health care provided to her children. The mother ended up owing tens of thousands of dollars.

Position: Monitor
Sponsors: Reps. Tipper & Soper, Sen. Gonzales
Final Status: Awaiting Governor's Signature
Staff: Kiley Burress

HB22-1231, Foster Parent Bill of Rights

This bill creates a set of standards and rights for a parent who is involved in the foster care system. This bill creates some of the following rights:

1. A foster parent can receive training and support from the state department of human services or county department of human services. This training is to provide foster parents with the skills needed in providing daily care.
2. The foster parent is to be informed on how to reach the county departments during afterhours.

3. A foster parent is to be notified when a foster child they previously cared for reenters the foster care system.

Position: Support

Sponsors: Rep. Van Beber, Sens. Hisey & Fields

Final Status: Awaiting Governor's Signature

Staff: Kyley Burress

HB22-1240, Mandatory Reporters

HB1240 is being brought forward by the Child Protection Ombudsman (CPO) to create the Mandatory Reporter Task Force. Mandatory Reporters are those individuals who are required to report any reasonable cause or suspect of child abuse or neglect. County peace officers, probation officers, and departments of health and human service employees are mandatory reporters; county caseworkers also intake and investigate these reports. The task force is broadly assigned with recommending specialized and standardized training materials for reporters and providing information on reporters' obligations and protections, where there is confusion in current law.

Of effect to counties, the task force is required to analyze and recommend:

- Standardized training for reports that meet the threshold for county assessment and investigation
- Benefits of an electronic reporting platform
- Methodology to confirm receipt of reports, and circumstances where outcomes can be shared with reporters
- Definition of "immediately"
- The personal information of a child that is collected for a report

Any recommendations from the task force will require further legislation to be adopted. The task force will include two county human service department representatives, one rural and one urban, a county attorney representative, and a law enforcement representative.

Position: Support

Sponsors: Reps. Froelich & Young, Sens. Fields & Simpson

Final Status: Awaiting Governor's Signature

Staff: Katie First

HB22-1258, Essential Services for Youth Special Districts

This bill creates an essential service for youth special districts in each judicial district. Essential services are defined in the bill as services provided by essential services providers that counsel, encourage, advise, and generally provide direct support to at-risk youth through advocacy or intervention. Essential services does NOT include services provided by a for-profit organization, school-based education programs, day care centers, recreation centers, data collection agencies, solely physical medical services, and services provided by programs that are entirely funded by the government.

The goal of the bill is to create a special district to provide an opportunity for these entities to go to the voters to request a sustainable funding source through taxes. This bill is being brought forward by the Adam's and Broomfield CASA.

Position: Oppose
Sponsor: Rep. Bird
Final Status: Postponed Indefinitely
Staff: Kiley Burress

HB22-1259, Modifications to Colorado Works Program

HB 1259 creates a series of changes to the Colorado Works Program (aka TANF – Temporary Assistance to Needy Families). This is Colorado’s welfare program that is currently providing assistance to about 14,000 Coloradans who earn roughly \$13,000 a year (for an individual who qualifies for the program).

HB 1259 was amended heavily in response to county and state concerns around fiscal sustainability and the potential of losing the supportive services (eviction assistance, job training, transportation supports, paid internships, car repairs, supports for non-profits that work with TANF clients, etc.) that counties provide to help move individuals and families on TANF out of situational and generational poverty.

The most substantial policy change in HB 1259 is the increase in basic cash assistance (BCA) that all TANF clients will receive beginning on July 1, 2022. Specifically, all TANF clients will see a 10% increase in their BCA. This increase will be paid for in the first few years with \$21.5 million in America Rescue Plan Act (ARPA) Funding.

Beginning on July 1, 2024, the 10% bump (from the BCA amounts in 2021) will grow by an inflationary adjustment (determined by a 3 year average).

Once ARPA dollars are exhausted, BCA increases will be paid for as follows:

- 1.) 2/3 covered by the State General Fund, or any other available state funds including the Colorado Long Term Works Reserve.
- 2.) 1/3 covered by a mix of County & State TANF Block Grant and Reserves

Amendments added in the senate specifically authorize the Unclaimed Property Trust Fund dollars to be transferred to the State’s TANF Reserve to help cover the 2/3 ‘state share’ of this new policy. They also state that the use of the Unclaimed Property Trust Fund is available only in years when the state does NOT hit the TABOR revenue cap. This addition opens the ‘policy’ door but does not explicitly allow the state to use TABOR refunds to help pay for BCA increases pursuant to HB 1259 (an idea Sen. Moreno floated with counties in late March 2022).

Recognizing the fact that the County & State TANF Reserves are one-time dollars, HB 1259 creates a ‘backstop’ on both reserves to ensure that the total balance does not drop below the floor. For the state reserve, the floor is 25% of the state block grant (which is $\$136.1m * .25 = \34 million). For the county reserve, the floor is 15% of the county block grant (which is $\$128m * .15 = \19 million). Should these floors be reached, the fiscal obligation to maintain the BCA increases shifts entirely to the State General Fund and the Unclaimed Property Trust Fund, until the reserves grow beyond those floors.

In addition to the increase in BCA, HB 1259 creates additional policy changes that will have the effect of increasing the number of individuals who are eligible for TANF and the amount of time they may receive benefits. Those include:

- 1.) Allowing those with drug-related felony offense to be eligible (this results in a relatively few new individuals into the program)

- 2.) Requiring the State Board of Human Services to develop rules outlining a ‘gradual’ step down in the BCA amount for those transitioning off the program (this is a bit of an unknown and depends on how a gradual step down is defined)
- 3) Allowing participants to extend the length of time they participant in the program under certain circumstances
- 4) Allowing some participants to be exempt from the work requirements of the program under certain circumstances

The cost of these provisions is captured in the shared fiscal obligation outlined earlier around the BCA increases. These are not stand alone, separate cost drivers.

Another helpful amendment states that counties are only required to spend available TANF money, including county TANF reserves and the maintenance of effort, for the Colorado Works Program.

CCI secured a few additional amendments related to the Works Allocation Committee and the need to develop a reserve mitigation fund to anticipate a situation whereby an individual county’s TANF reserve could drop below 15%. CCI also secured an amendment that will require the state to track and report what – if any -changes have occurred around a county’s ability to offer supportive services to TANF clients.

Position: Amend

Sponsors: Reps. Duran & Jodeh, Sen. Moreno

Final Status: Awaiting Governor’s Signature

Staff: Kiley Burress & Gini Pingnot

HB22-1278, Behavioral Health Administration

HB 1278 creates the Behavioral Health Administration (BHA) in the Colorado Department of Human Services. Some of the key provisions of the bill include:

- 1.) Creates the role of the BHA Commissioner and outlines the position’s duties.
- 2.) Tasks the State Board of Human Services as the rulemaking authority for the BHA.
- 3.) Charges the BHA with developing a system-wide behavioral health grievance process.
- 4.) Requires the BHA to establish a performance monitoring system to track capacity and performance of all behavioral health providers.
- 5.) Requires the BHA to develop universal contract provisions to be used by all state agencies when contracting for services.
- 6.) Requires the BHA to develop a Behavioral Health System Plan and update it annually.
- 7.) Creates, in collaboration with the Colorado Department of Health Care Policy and Financing and the Colorado Department of Public Health and Environment, a behavioral health safety net system to ensure access to services.
- 8.) Creates new Behavioral Health Administrative Services Organizations (BHASOs) – which will follow the same geographic boundaries of the Regional Accountable Entities (RAEs) – to provide behavioral health safety net services and care coordination to those not covered by Medicaid.
- 9.) Creates a 15-20 member Behavioral Health Advisory Council and Regional Committees within each BHASO.

Position: Support

Sponsors: Reps. Young & Pelton, Sens. Lee & Simpson

Final Status: Awaiting Governor’s Signature

HB22-1281, Behavioral Health-care Continuum Gap Grant

HB 1281 is the result of the work of the Behavioral Health Task Force. As amended, the bill creates three new grant programs: 1.) the Community Behavioral Health-Care Continuum Gap grant program (\$35m); 2.) the Children, Youth and Family Services Grants (\$40m) and 3.) the Substance Use Workforce Stability Grant Program (\$15m). All three grants will be administered by the New Behavioral Health Administration (BHA) (see HB22-1278).

Community based organizations, local governments and non-profits are all eligible to apply for the **Community Behavioral Health-care Continuum Gap Grants**. This grant fund can cover prevention, treatment, crisis services, recovery, harm reduction, care navigation and coordination, transitional housing, and much more. The **Children, Youth and Family Services Grants** are intended to cover children, youth and family oriented behavioral health care services, care coordination services, etc. The BHA shall begin accepting grant applications no later than December 31, 2022. Funding that is received by an applicant shall be spent or obligated by December 31, 2024.

Preference will be given to applicants that align their grant request with the findings a community assessment/ gap analysis (either one that has already been done for a community or a new one that the community implements). The BHA will provide technical support to any community lacking a gap analysis. Grant applicants must demonstrate in their proposal collaboration/communication with local governments/relevant stakeholders in which services will be offered.

The **Substance Use Workforce Stability Grant** Program was added in response to the Fentanyl bill ([HB22-1326](#)). Both substance use disorder treatment providers and local governments are eligible to apply for this funding. The BHA will prioritize grant requests from providers that offer same day or next day appointments serving low-income and marginalized populations or who intend to expand the number of individuals they serve.

Position: Support

Final Status: Awaiting Governor's Signature

Staff: Gini Pingnot

HB22-1295, Department of Early Childhood

HB 1295 creates a brand-new state department in Colorado. The new Department of Early Childhood will be responsible for the new universal preschool program and moves a number of existing programs, including the Colorado Child Care Assistance Program (CCAP), and various child maltreatment programs that counties work with closely to help prevent child abuse to the new department. The universal preschool program will begin in FY 2023-24.

HB 1295 authorizes the Executive Director of the new department to promulgate rules and creates a 15 member rules advisory council to support rulemaking. Additionally, a 'county subcommittee' of the rule advisory council will help elevate issues related to the child care assistance program and the family support programs to promote coordination and alignment of programs and services.

CCI advocated for a governor appointed rule making body in lieu of a unilateral decision making Executive Director. Those efforts fell short. Instead, the rule-making function of the Executive Director

of the DEC will be reviewed by the general assembly by September 2024 and the discussion around the governance structure will be revisited at that time.

Finally, HB 1295 requires the DEC to develop and implement a single, online application for families to use for applying for all publicly funded early childhood programs and services offered by the department. The bill also creates new local coordinating organizations (LCOs) that will be responsible for coordinating application and enrollment for early childhood programs, managing the mixed delivery system or preschool, distributing funds and increasing capacity over time.

HB22-1360, Retaining Percentage of Federal Child Support Payments

This bill is being brought forward by Rep Titone who sits on the Joint Technology Committee (JTC). The JTC has had extensive conversations about how to update the current IT systems that County DHS uses, specifically the system counties use to collect child support dollars this system is often referred to as ACES. The goal of this bill is to collect federal incentive dollars that are not currently being captured and utilizing these dollars to update ACES. The reason we haven't collected these dollars before is the state made changes to the program which allows the state to draw down more incentive dollars. DHS indicates that they can collect up to \$800,000 of federal incentive dollars annually. There is a 3-year review piece in the bill, but the purpose of the review is to determine whether the money should continue to go to update ACES or if these dollars can be shifted to update other county systems.

When the bill was in committee two amendments were adopted, that counties brought forward:

- [Amendment L.002](#)- clarifies that the decision on how to spend these incentive dollars are joint decision between county human service directors and the state. This gives authority to the county human service directors to decide whether the dollars should go to update ACES or back to the counties.
- [Amendment L.003](#)- updated the legislative declaration to reflect the changes made in Amendment L.002.

HB22-1375, Child Residential Treatment & Runaway Youth

As introduced, this bill created a quality assurance and accountability system for child residential treatment facilities and required implementation; however, this entire section was removed from the bill during its first committee hearing.

As passed by the legislature, the bill creates the “Timothy Montoya Task Force to Prevent Children from Running Away from Out-of-home Placement”. The task force will also include representatives from an urban and rural human services department and is assigned to analyze why children run away from out-of-home placement; develop a consistent, prompt, and effective response to recover missing children; and address the safety and well-being of a child upon the child’s return to out-of-home placement. This task force will be led by the Child Protection Ombudsman, who must also partner with an institution of higher education to perform related research. The task force must develop a report with their findings and recommendations to the General Assembly.

HB22-1380 Critical Services for Low-income Households

The bill appropriates \$3 million from ARPA funds in FY 22-23 to the Department of Human Services to establish a statewide work management system that all counties can access and use. Work management systems are systems that counties use to process and approve applications for essential state public assistance programs such as the supplemental nutrition assistance program (SNAP), Medicaid, and Colorado Works.

The bill also integrates enrollment and eligibility for SNAP and LEAP, which is Colorado’s low-income energy assistance program.

SB22-106, Conflict of Interest in Public Behavioral Health

As amended, SB 106 requires all Regional Accountable Entities (RAE), Managed Services Organizations (MSO) and Administrative Service Organizations (ASO) that have over 25% provider ownership to comply with certain conflict of interest policies in order to promote transparency and accountability by January 1, 2023. Those are:

- 1.) Providers that have ownership or board membership in a RAE, MSO, ASO shall not have control, influence or decision-making authority in the establishment of provider networks;
- 2.) More oversight by the state to monitor network adequacy, network denials and funding allocation to ensure providers that have ownership or board membership are not inappropriately given preference in funding decisions;
- 3.) Prohibition of an employee of a contracted provider of a RAE, MSO or ASO serving as an employee of a RAE, MSO or ASO (exceptions include the Chief Clinical Officer, Utilization Management Director and/or Medical Director);
- 4.) Requirement that no more than 50% of a RAE, MSO, ASO's board members can consist of providers.

SB22-225, Ambulance Service Sustainability and State Licensing

SB 225 creates an 18 member task force to review and provide guidance on the sustainability of ground ambulance licensing in Colorado. Two of the 18 members will be county commissioners representing different parts of the state. The task force will convene through January 1, 2027.

One of the key provisions of SB 225 involves a change to the issuance of ground ambulance licensing. Currently, this duty resides with the Board of County Commissioners. SB 225 states that, beginning July 1, 2024, this duty will become a shared state and county obligation.

Under SB 225, counties can enact ordinances or resolutions governing the authorization to operate ambulance services within the county. This can include limiting the number of ambulance providers operating within the county, determining the ambulance services provider's service area, and imposing contractual obligations on the provider.

The state is required to establish minimum standards for an ambulance provider to operate by January 1, 2024. Ambulance providers will need to meet these standards and then come to the county for their final 'sign off' to ensure that the provision of service meets the county's expectations as outlined in the aforementioned ordinance/resolution. If the county has no additional criteria to add, they can 'opt out' of playing any role in the issuance of ambulance licensing.

CCI secured amendments that were adopted in the Senate Finance Committee to clarify that an ambulance provider cannot operate in a county without securing the county's approval. Additionally, CCI broadened the types of agreements a county can enter into with an ambulance provider to create the option for a license which carries governmental immunity protections.

SB22-235 County Administration of Public Assistance Programs

SB 235 is a Joint Budget Committee bill that was initiated by CCI, CHSDA, Denver and Boulder. The bill compliments the funding priority CCI/CHSDA outlined in a letter that was sent in September 2021 highlighting the underfunded nature of the county administration fund. This fund supports every county's work in determining the eligibility of neighbors in need of SNAP, Medicaid, Aid to Needy Disabled and Old Age Pension. It currently has a balance of \$135m.

Specifically, SB 235 will result in two work-products, both paid for with state general funds. The first is an 'efficiency assessment' that will analyze the improvements that can be made at both the county and state level in administering public and medical benefits. This could include workflow enhancements, technology improvements, streamlining complicated policy requirements and much more. The results of this 'efficiency assessment' will then feed into a funding model that will help everyone better understand how much funding is needed to appropriately support this work.

HB22-1041, Privacy Protections for Protected Persons

Under current law, it is unlawful for a person to make available on the internet the personal information of a law enforcement official, human service worker, public health worker, and their families. This bill amends CRS 18-9-313 to allow code enforcers and their families to request the removal of their personal information from the internet. Code enforcement officers often experience threats related to their official duties. Workers' personal information is available on the internet and creates safety issues for the workers, their children, and their families, even while at home. Threats against code enforcers cause safety, morale, and job retention problems.

With this bill, code enforcers may submit a written request to a local government official to remove records that pose an imminent and serious threat to their safety. Additionally, the bill creates a carve out for real estate transactions, so that they may occur in a timely manner while equally ensuring that an individual is provided the necessary protections.

During committee an amendment was added to the bill to include medical health professionals and attorneys and advocates with the Office of Child Representative.

HB22-1063, Jail Standards Commission

Colorado is one of 12 states that does not have a state- wide jail standards commission. This bill creates a 20-member jail standards commission, made up of 5 county sheriff's, 2 county commissioners, 3 people with lived experience, and others (for a full list of members please refer to the bill). The commission will be housed in the Department of Public Safety and the purpose of the commission it to oversee and recommend jail standards for county jails across the state. Some of recommended standards are, making sure that inmates have access to clean water, making sure inmates have access to phones or laptops, and that jails are complying with safety and sanitary guidelines (for a complete list please refer to the bill). Not complying with these standards could result in a sanction. The commission is to be stood up by January 1, 2023, with recommendation made by July 1, 2023, and each year after until September 1,2029.

Bill was amended in committee to change the bill to a report. The commission under DPS is required to write a report on the state of jails in Colorado. This report is to be submitted to the legislature and then it's up to the legislature to run a bill.

HB22-1256 Modifications to Civil Involuntary Commitment

This bill makes changes to the 27-65 statute which is the statute related to the care and treatment of persons with a mental health disorder. CCI has been engaged in conversations regarding this legislation. Most recently we met with Mental Health Colorado, the bill proponents, county attorneys, and district attorneys to discuss a workload issue related to civil commitments. Currently in statute, that DAs in a county with a population of 50,000 shall handle civil commitments. In an earlier iteration of the bill, DAs no longer had to handle civil commitment cases. After our conversation, this piece was taken out and has been left as is.

There was concern that counties couldn't request a secure transport, but there is language throughout the bill that any time a court can order a law enforcement officer to transport, that they may also order a secure transportation provider. Mental Health Colorado championed HB-1284 "secure transportation" last year. However, the rules to implement that bill are just being promulgated so secure transportation is not yet available statewide.

SB22-018, Expand Court Remind Program

Under current law, the court reminder program currently provides defendants two text message reminders for court appearances, this program is currently an opt-in program, meaning defendants only get these reminders if they've opted in to receive them. Which is creating more failure to appear and bench warrants for missing court.

The bill will change the program to an opt-out program, meaning all defendants will be automatically enrolled in the program. The bill will require the program to provide at least 3 reminders, including one reminder the day before the court appearance, the second reminder with a virtual court option, and the final reminder which much include a link to the virtual court hearing. The program is required to send

these reminders via text messages but must use another method if a defendant is unable to receive text messages.

HB22-1007, Assistance Landowner Wildfire Mitigation

HB 1007 is a priority bill from the Wildfire Matters Interim Review Committee that establishes the Wildfire Mitigation Resources and Best Practices Grant Program administered by the Colorado State Forest Service (CSFS). Eligible recipients include local governments, tribal agencies or nonprofit organizations, and grants can be used for outreach & education projects to landowners in high wildfire hazard areas. Grant applications that CSFS evaluates as having a larger potential impact will be prioritized.

Beginning in fiscal year 2023-2024, the bill requires an annual state General Fund appropriation to the Healthy Forests and Vibrant Communities Fund to implement the grant program.

The bill extends an existing income tax *deduction* through income tax year 2026 available to offset 50% of a landowner's costs (up to \$2,500) from performing wildfire mitigation on the landowner's property. The bill also creates a new state income tax *credit* available to offset 25% of a landowner's costs (up to \$2,500 but \$625 in any taxable year) from performing wildfire mitigation on the landowner's property. To qualify, a landowner must make a federal taxable income at or below \$120,000. Wildfire mitigation measures include creating defensible space, establishing fuel breaks, thinning woody vegetation, prescribed burns, chipping, etc.

HB22-1011, Wildfire Mitigation Incentives for Local Governments

HB 1011 was initiated by Healthy Air and Water Colorado (HAWC) and establishes the Wildfire Mitigation Incentives for Local Governments Grant Program administered by the Colorado State Forest Service (CSFS). Grants are available to either match dedicated wildfire mitigation revenue sources raised by local governments (tax, mill levy, or voter approved permanent retention of excess revenue) OR to expand existing, local, long-term programs and projects that are dedicated to wildfire mitigation (projects creating fuel breaks, forest thinning, fire fuel removal, landowner outreach and education, etc.). A local government can apply for and receive a grant before having a dedicated revenue stream if local voters approve a ballot issue creating the revenue source in the same year the grant is awarded.

The bill transfers \$10 million in state General Fund in July, 2022 for the implementation of the program.

Position: Support
Sponsors: Reps. Cutter & Snyder, Sens. Story & Lee
Final Status: Awaiting Governor's Signature

HB22-1012, Wildfire Mitigation and Recovery

HB 1012 directs the Colorado State Forest Service (CSFS) to develop a publicly accessible statewide carbon accounting framework that will provide carbon stock and flux estimates (using data from the U.S. Forest Service Forest Inventory and Analysis Program) for wood products and ecosystems by county and forest cover type. The bill will also direct CSFS to develop a forest carbon co-benefit framework for project-level forest management practices that will be used to train practitioners in adaptive management practices. CSFS is directed to provide technical expertise to assist industry and landowners with carbon inventories and monitoring.

The bill directs about \$95,000 for the bill's initial implementation, and also appropriate \$3 million from state General Fund to the Healthy Forests and Vibrant Communities fund, and \$2,200,000 to the Forest Restoration and Wildfire Risk Mitigation Grant Program, and \$2 million to the Wildfire Mitigation Capacity Development Fund in the 2022-23 fiscal year.

HB22-1104, Powerline Trails

HB 1104 requires transmission providers to notify public entities (the state and local governments) when there is an opportunity to build a recreational trail within an electric transmission corridor (powerline trail). The bill does not require any local government to build, allow or consider a powerline trail.

The bill authorizes transmission providers to enter into contract with public entities (the state, local governments, and special districts) and private landowners for the construction of powerline trails. Public entities are required to consider unique rural characteristics (related to grazing, wildlife impacts, and potential liability concerns of landowners with land adjacent to or inclusive of a transmission corridor), prior to the construction of any powerline trail.

The bill makes clear that transmission operators are not required to allow a trail or other facility in their rights-of-way, and that landowners with property adjacent to or inclusive of a transmission line right-of-way are not required to allow access to any portion of their property, including the transmission right-of-way, for the construction of a trail.

Final Status: Governor Signed

HB22-1132, Regulation and Services for Wildfire Mitigation

HB 1132 requires any person planning to conduct a controlled burn on private property (excluding agricultural land) to first provide notice per local rules and regulations. Where no local rules or regulations exist, the bill requires notice to be given to the local dispatch center, county sheriff, and where applicable, the fire department providing services to the area where the controlled burn would be conducted. The bill gives fire departments the authority to determine whether personnel must be on standby before a person

can conduct a controlled burn. The bill specifies that no person is exempt from complying with any other applicable local, state, or federal laws pertaining to open burning.

The bill appropriates \$100,000 in state General Fund for needs-based grants to volunteer fire departments.

Position: Amending

Sponsors: Reps. Holtorf & Exum, Sen. Liston

Final Status: Awaiting Governor's Signature

HB22-1151, Turf Replacement Program

HB 1151 appropriates \$2 million in state General Fund for the establishment of a turf replacement program to incentivize water-wise landscaping (designed for water conservation, efficient irrigation, and soil health). The bill requires the Colorado Water Conservation Board (CWCB) to develop a state program by 2023 to finance the voluntary removal and replacement of irrigated turf with water-wise landscaping on residential, commercial, institutional, or industrial properties.

The bill allows local governments, districts, tribes and nonprofit organizations to apply to the CWCB for matching funds (up to 50% of the direct and indirect costs) to support and expand existing local turf replacement programs. Where local programs do not exist, the CWCB will contract with third parties to administer a statewide program.

In the development of the state turf replacement program, the bill encourages CWCB to require program participants to maintain or create defensible space to reduce wildfire risk.

Position: Support

Sponsors: Reps. Catlin & Roberts, Sens. Bridges & Simpson

Final Status: Awaiting Governor's Signature

HB22-1218, Resource Efficiency Buildings Electric Vehicles

HB 1218 requires contractors, master electricians, and architects that plan, design or construct high-occupancy buildings to include a certain percentage of electric vehicle (EV) charging parking spaces in a building project, and to run conduit and include space in electrical facilities to be able to increase EV charging parking spaces in the future. These requirements apply to new commercial buildings at least 25,000 square feet, or commercial building projects at least 40,000 square feet across multiple buildings with at least 25 living quarters or commercial units. It also applies to new multifamily buildings with at least 10 parking spaces and 3 family units. Requirements apply to existing commercial and multifamily buildings if at least 50% of the building undergoes renovation, but local governments that conduct electrical inspections may issue waivers on the renovation threshold that triggers the compliance requirement.

For commercial buildings:

- 25% of the parking spaces used by the occupants of the building must be EV capable, which means that the building is ready to run the wiring and install a 208 to 240 volt receptacle;
- 10% of the parking spaces used by the occupants of the building must be EV ready, which means that each parking space has a working 208 to 240 volt receptacle; and

For multifamily buildings:

- In 50% of the units, a parking space used by the occupants of the building that is EV capable;
- In 20% of the units, a parking space used by the occupants of the building that is EV ready

A building must comply with these requirements to be issued a building permit. The bill allows contractors, master electricians, and architects to include the cost of implementation into the price to plan, draft or construct the building project, and a building project owner may charge the cost of complying directly to individual tenants that use the EV ready parking spaces and EV supply equipment.

[HB22-1242](#), Regulate Tiny Home Manufacture Sale and Install

HB 1242 was initiated by Larimer County and creates a legal pathway for permanent occupancy of tiny homes. The bill creates a class for tiny homes to be regulated in a similar way as factory-built structures and manufactured homes. It defines tiny homes for permanent residential use, and adds tiny homes to the scope of authority of the Division of Housing and State Housing Board. Tiny homes are defined as structures that:

- Are permanently constructed on a vehicle chassis
- Are designed for long-term residency
- Include electrical, mechanical, or plumbing services
- Are not self-propelled, and
- Are no more than 400 square feet.

The bill adds two tiny home industry representatives, and one energy conservation specialist, to the advisory committee that assists the State Housing Board in promulgating standards for tiny home manufacture and connection to utilities. The bill specifies that the Board can adopt a national or international standard once one is created and can modify those standards as needed. The Board is directed to regulate the foundation for manufactured homes and factory-built structures where no construction standards exist.

The bill allows local governments to require inspection of a tiny home installed prior to a state standard, and allows local governments or the state electrical or plumbing inspector (where there is no such local inspection) to approve the connection to electrical and plumbing services. The bill makes clear that local governments have the authority to approve connections of tiny homes that comply with the bill's provisions.

The bill declares the sale or installation of a tiny home out of compliance with the bill a deceptive trade practices, subject to damages in a lawsuit, a class 1 misdemeanor, and civil penalties up to \$50,000 per violation.

Finally, the bill also folds tiny homes into the mobile home park regulatory regime related to notice requirements, lease termination limits and requirements, security deposit regulations, entry fee prohibitions, antitrust prohibitions, selling fee prohibitions, kickback prohibitions, retaliation prohibitions, regulation of how and if park rules are established, a right of first refusal when the owner wants to sell the mobile home park, a peaceful enjoyment right, and remedy provisions. Tiny homes are added to the

current sales and use tax exemption that applies to manufactured homes, and are classified as residential improvements for the purpose of property tax.

Position: Support

Final Status: Awaiting Governor's Signature

HB22-1355, Producer Responsibility Program for Recycling

HB 1355 creates a centralized system for recycling in the state funded through annual dues paid by producers of packaging and managed by an independent nonprofit organization (called a producer responsibility organization or PRO) in consultation with a stakeholder-driven advisory board.

The program would require brand owners (producers) to fund a statewide recycling system for cardboard, plastic, metal, paper, and other common recyclables included in a “readily-recyclable materials” list. This recycling program only applies to materials used for packaging, paper products and single-use food serviceware, and would only be available to residences, businesses, educational institutions, state and local governments buildings, and public places (defined as covered entities).

Producers would be required to pay dues to the PRO if they make more than \$5 million in annual gross total revenue, and contributions would be calculated based on the amount (weight) and type of packaging the producer sells in Colorado (producers are exempt if they sell/distribute less than a ton of covered materials in any given year). The PRO would use a portion of funds to reimburse service providers, including private companies and local governments, for their full costs of operating recycling collection and processing programs (a local government is not required to provide recycling services, but if they elect to do so, this would cover 100% of costs of administering a recycling program, including for consumer education). Agricultural employers who make less than \$5 million in gross total revenues in the state from consumer sales of agricultural products sold under the brand name of the farmer, egg producer, grower, or individual grower cooperative are exempt from requirements in the bill.

The Colorado Department of Public Health & Environment (CDPHE) would oversee the PRO, in consultation with an advisory board that consists of:

- Local governments (one municipality, one county, and one local government outside of the Front Range)
- Recycling companies, including public and private haulers
- Environmental or community-based nonprofit organizations
- Packaging material suppliers (not a producer)
- Manufacturers of recycled paper products (not a producer)
- Trade associations, chambers of commerce, or other state business advocacy organizations
- Retailer associations (not a producer)
- Composting facility operators
- Environmental justice advocates representing underserved communities
- Statewide recycling program experts
- Non-voting members representing CDPHE and the PRO

In overseeing the PRO, CDPHE would be responsible for:

- Selecting a nonprofit organization to implement and manage the statewide program
- Reviewing and approving a plan that establishes the statewide recycling program.

The program is projected to launch in late 2025 – early 2026, but before then, the bill sets up the following timeline:

- 2023:
 - o PRO is established and must conduct an assessment covering existing recycling services provided in the state as well as statewide recycling needs that are not being met
 - o Advisory Board convenes
- 2024:
 - o PRO plan is developed and results of the assessment provided to CDPHE and advisory board
- 2025:
 - o PRO solicits input from advisory board and stakeholders, and submits plan proposal to be approved by CDPHE.

As an alternative to participating in the PRO, a producer may submit an individual plan proposal to the advisory board by January 1, 2025, and each year thereafter. Beginning in July 2025, a producer may not sell or distribute any products that use covered materials in the state unless the producer is participating in the PRO or implementing an approved individual plan proposal.

Final Status: Awaiting Governor's Signature

HB22-1362, Building Greenhouse Gas Emissions

Current law requires local governments to adopt one of the three latest versions of the International Energy Conservation Code (IECC) when updating or adopting their building codes. HB 1362 updates minimum energy code requirements to require local governments to adopt the 2021 IECC and model codes to be developed by an Energy Code Board when/if they adopt or update their building codes. These requirements only apply to local governments with building codes.

The Energy Code Board created in the bill consists of the following members appointed by the Director of the Colorado Energy Office (CEO):

- The Director of the Energy Office or the Director's designee
- One member representing urban counties
- One member representing rural municipalities
- Two members representing environmental or sustainability groups
- One solar power expert
- One energy efficiency expert
- One professional engineer with experience working on systems for buildings
- One member representing an electrical and/or gas utility
- One architect
- One building energy code expert
- In addition to the following members appointed by the Department of Local Affairs (DOLA):
 - o One member representing rural counties
 - o One member representing urban municipalities
 - o Two members representing affordable housing operations

- One representing for-rental nonprofit builders serving populations under 80% AMI
- One representing a nonprofit affordable for-sale housing builder
- Two members who hold an electrical license, plumbing license or a professional credential in the mechanical trades, at least one of whom is a member of a labor organization
- One member representing a statewide organization of home building professionals
- One member with building operation expertise
- One contractor who provides mechanical, electrical, or plumbing services or representing a statewide association that represents contractors

The bill also creates the Energy Code Board Executive Committee with the following members jointly appointed by the Directors of CEO & DOLA:

- The Director of CEO or designee
- The Director of DOLA or designee
- One member from the Energy Code Board representing either urban or rural counties
- One member from the Energy Code Board representing urban or rural municipalities
 - *Note: one local government representative must be a building official
- The member from the Energy Code Board who is a building energy code expert

The Energy Code Board is charged with developing the model codes that will be promulgated through rule. This includes the model electric ready and solar ready code by 2023, and the model low energy and carbon code by 2025.

In order to develop the model codes, two-thirds of the Energy Code Board must approve each element of the codes. If two-thirds of the Energy Code Board disapproves any element of the codes, the Executive Committee will vote on all elements that did not reach two-thirds approval by the Board, and a simple majority vote by the Executive Committee rules.

The model electric and solar ready code will apply to new residential or commercial buildings and will include:

- Solar ready requirements
- EV ready or EV capable requirements for residential buildings
- EV ready, EV capable, and EV supply equipment installation requirements for multi-family and commercial buildings with provisions for electrical service capacity in 20% or more of parking spaces in garages or parking areas
- Electric ready requirements for single-family residential mixed fuel use buildings
- Electric ready requirements for multi-family and small commercial mixed fuel use buildings under 10,000 square feet
- Requirements that multi-family and large commercial mixed fuel use buildings 10,000 square feet or more provide dedicated electrical panel space, wiring, receptacles, and panel capacity to accommodate future installation of efficient, electric technologies and EV charging. These requirements must consider cost-effectiveness of pre-wiring and the ability to determine what wiring and receptacle locations would be needed.
- A process to waive energy code requirements under declared natural disasters that destroy buildings or under other circumstances determined by the Code Board
- An evidence-based waiver or variance process to allow builders, developers, or building owners to request a waiver when a substantial cost differential (1% or more of the total mechanical, electrical, and plumbing construction cost of a project) can be demonstrated

The model low energy and carbon code will apply to residential or commercial buildings and will include:

- The more energy efficient of either the 2021 or 2024 IECC
- The model electric ready and solar ready code
- Compliance pathways for all-electric and mixed fuel use buildings
- Exemptions for electricity consumption in buildings from renewable energy
- Allowances for projects consisting of only replacing a space or water heating system without triggering pre-wiring requirements
- Consideration of home affordability
- A process to waive code requirements under declared natural disasters that destroy buildings or under other circumstances determined by the Code Board

CEO must also develop a model green code by 2024 and promote its voluntary adoption.

CEO is required to provide energy code training to local governments, builders and contractors in adopting and implementing the 2021 IECC code, the electric and solar ready code, and the low energy and carbon code. CEO must provide financial assistance to support local government adoption and enforcement of these codes, contingent on funding being made available.

The bill creates two grant programs to support training, technical assistance, adoption, and enforcement:

- The first program is the Building Electrification for Public Buildings Grant Program available to local governments, school districts, state agencies, and special districts for the installation of high efficiency electric heating equipment. CEO is required to award at least a quarter of those grant funds to eligible entities from low-income, disproportionately impacted, or Just Transition communities. Any entity that receives a grant would be required to submit an annual report to CEO for the first five years after receiving the grant.
- The second program is the High Efficiency Electric Heating and Appliances Grant Program available to local governments, utilities, nonprofit organizations, and housing developers for the installation of high efficiency electric heating equipment in multiple structures within a neighborhood.

The bill directs \$22 million total to the new fund created in the bill, with \$10 million dedicated to the creation, implementation, and administration of the grant programs. Each grant program would have \$1 million available for competitive grant awards.

The bill also requires the following transfers from the state General Fund:

- \$2 million to the energy fund created for the Colorado Energy Office to issue grants to local governments to support their adoption and enforcement of the codes
- \$1 million to provide energy code training and technical assistance, including grant writing assistance, to assist local governments in adopting and enforcing codes, including the direct and indirect costs of aligning energy codes and providing training and technical assistance
- \$10 million to the Clean Air Building Investment Fund for the creation, implementation and administration of the Building Electrification for Public Buildings Grant Program
- \$12 million to the Clear Air Building Investment Fund for the creation, implementation and administration of the High Efficiency Electric Heating and Appliances Grant Program

If a rural county with a population of 30,000 or less applies for but does not receive a grant that significantly assists with energy code adoption and enforcement training, the rural county must only adopt one of the three latest versions of the IECC when adopting/updating their codes.

The bill applies the same code requirements to all construction by the Division of Housing, the Office of State Architect, and on state-owned properties or facilities, including those leased by the state. As such, code requirements apply to factory-built structures, manufactured homes, hotels, motels, multi-family structures, etc. The bill allows the state to make any amendments to the code so long as those amendments do not decrease the effectiveness or energy efficiency of the code.

Finally, the bill restricts a county's ability to prohibit or otherwise restrict acceptable refrigerants identified by the EPA.

Final Status: Awaiting Governor's Signature

SB22-002, Resources for Volunteer Firefighters

SB 2 is a priority bill from the Wildfire Matters Interim Review Committee that allows fire departments, including fire protection districts and volunteer fire departments, to be compensated from state funding sources (Governor's Emergency Fund and the Wildland Cost Recovery Fund) for fire suppression activities. Fire departments are eligible for reimbursement if (1) they rely primarily on volunteer firefighters, (2) a fire exceeds the department's capacity to extinguish or control, *and* (3) the period of mutual aid has ended.

As necessary, the bill requires county sheriff's offices to modify any intergovernmental agreements (IGAs) to allow for this type of reimbursement, and also authorizes Boards of County Commissioners (BOCCs) to reimburse fire departments from county funds in the same circumstances. Fire departments must use money received to compensate volunteer firefighters as directed by the Division of Fire Prevention and Control (DFPC).

The bill amends the existing Local Firefighter Safety and Disease Prevention Fund to require DFPC to give priority to applicants that:

- Have lost tax revenue as a result of decreased assessment values due to a wildland fire in the previous 5 years;
- Rely solely or primarily on volunteer firefighters and serve communities affected by wildland fires;
- Demonstrate the greatest need for additional funding to ensure the safety of volunteer firefighters

DFPC is authorized to use the Fund to directly purchase and distribute equipment, and to pay for training for governing bodies and volunteer fire departments without requiring a grant application.

The bill creates a trust to fund behavioral and mental health services to firefighters (similar to existing trusts for cancer and heart diseases). This trust will require employers, including county protection districts, to participate and contribute to the trust, and the state is required to reimburse all contributions to the trust through the Fund. If at any point funding becomes insufficient, employer participation in the trust becomes voluntary. The bill receives a \$5,000,000 state General Fund for implementation of the Fund.

Final Status: Awaiting Governor's Signature

SB22-015, Douglas County on Urban Drainage Flood Control District

SB 15 adds a Douglas County municipal representative to the Mile High Flood Control District that oversees flood mitigation projects throughout the district. This district was created in 1969 in response to the 1965 flood in the Denver metro area. Currently, other counties in the district including Adams, Arapahoe, Boulder, and Jefferson all have municipal representation, but when the district was formed, Douglas County's population did not meet the threshold for a municipal representative.

As supported by the District's Board, SB 15 adjusts the District Board membership to reflect the population of Douglas County as it exists today as well as the revenues it contributes to the District.

SB 15 has been signed into law by the Governor.

Position: Support

Sponsors: Sen. Holbert, Rep. Titone

Final Status: Signed by Governor

SB22-110, Equip Wind Turbine Aircraft Detection Lighting System

SB 110 requires owners and operators of wind-powered energy generation facilities with a capacity of one megawatt or more to install aircraft detection lighting systems on 30% of turbines at facilities constructed after April 2022. Detection systems must meet Federal Aviation Administration (FAA) standards, and be sensor-based to only deploy a warning light when an approaching aircraft is detected. The owner or operator of the facility is responsible for the cost of installing, operating, or maintaining the system.

The bill gives local governments enforcement authority by allowing counties to impose civil penalties for non-compliance up to \$1,000 per day. Time extensions must be granted and no penalties can be issued if the pricing or availability of equipment limits the ability of an owner and operator to comply with the bill's requirements.

Position: Support

Sponsors: Sens. Sonnenberg & Kolker, Rep. Pelton

Final Status: Awaiting Governor's Signature

SB22-114, Fire Suppression Ponds Water Rights

SB 114 is a CCI-priority bill that establishes a process for Boards of County Commissioners to apply to the State Engineer for the designation and preservation of fire suppression ponds.

At a minimum, the bill requires that any fire suppression pond:

- Be in existence as of 1972
- Only have decreed storage rights if those rights are limited to use within the pond (like livestock or wildlife watering) or other non-consumptive uses
- Not be included in a decreed plan for augmentation, an appropriate right of exchange, or a state-approved substitute water supply plan
- Not exceed 6 surface acres
 - o Note: A county is limited to 30 surface acres of fire suppression ponds total

Additional criteria for ponds will be developed through rule by the Division of Fire Prevention and Control to consider firefighting related factors, such as location, accessibility, and infrastructure requirements.

To apply for the designation of a fire suppression pond, a Board of County Commissioners must:

1. Consult with local fire district or authority to identify ponds to evaluate as potential fire suppression ponds
2. Provide notice to the State Engineer on location and approximate size of ponds that will be evaluated for potential designation
3. Conduct a local needs assessment within one year that evaluates potential fire suppression ponds based on criteria in the bill and to be established through rule
4. Acquire landowner approval if the pond is located on private property; and
5. Submit the assessment and proposed pond designations to the State Engineer's Office for review and approval
6. At the time of application submission, provide notice and copy of application to the Substitute Water Supply Plan list (this is an email distribution list provided by the State Engineer), and a 140-day comment period

Note: Upon the State Engineer's approval of an application, water rights holders have 70 days to petition the approval to the Water Court with sufficient evidence of material injury.

Approved fire suppression ponds are exempt from the administration of water rights and as such, are not subject to drainage orders by the State Engineer. Approved ponds carry an active designation for 15 years, after which counties and fire districts would need to conduct an updated assessment and submit to the State Engineer for re-designation. Fire suppression ponds require an annual inspection by the county and fire district to ensure ongoing compliance with criteria.

SB22-138, Reduce Greenhouse Gas Emissions In Colorado

SB 138 was an expansive greenhouse gas (GHG) emissions reduction measure that would have:

1. Updated the statewide GHG emission reduction goals
2. Provided financial incentives to promote the replacement of small, gas-powered equipment with electric alternatives
3. Given the Colorado Oil & Gas Conservation Commission (COGCC) authority over class VI injection wells used for sequestration of GHG
4. Required the Air Quality Control Commission (AQCC) to adopt rules reduce GHG emissions from sources in industrial and manufacturing sectors
5. Required the Commissioner of Agriculture, in consultation with an institution of higher education, the AQCC, and the Colorado Energy Office, to conduct a study on carbon reduction and sequestration opportunities in Colorado's agricultural sector and in land management

6. Authorized the Colorado Agriculture Value-Added Development Board to provide grants or loans for agricultural research on agrivoltaics, and annually appropriated \$1,800,000 through 2027 for agrivoltaic research.
7. Amended the definition of solar energy facility to include agrivoltaics in determining the valuation of public utilities for property tax purposes
8. Required insurance companies that report more than \$100 million on their annual schedule T filing with the National Association of Insurance Commissioners (NAIC) to participate in the NAIC's "Insurer Climate Risk Disclosure Survey" or successor survey
9. Required the Public Employees' Retirement Association (PERA) to include as part of its annual investment stewardship report a description of climate-related investment risks, impacts and strategies
10. Added wastewater thermal energy equipment to the definition of "pollution control equipment" and "clean heat resource"

HB22-1006, Child Care Center Property Tax Exemption

HB 1006 is one of CCI's eight legislative priority bills for 2022. The bill allows property owners that lease space to a non-profit child care center to claim a property tax exemption. Prior to the passage of HB 1006, a non-profit child care centers had to own and operate their center from a facility/space. Ownership of a facility/space is now no longer a requirement for a non-profit child care center to claim a property tax exemption.

HB 1006 includes a provision requiring the lessee to sign the property owner's application to secure the property tax exemption. Complying with the space requirements and other accommodations like child size toilets and sinks, fencing, etc. can be costly for a property owner. Allowing the tax exemption to inure to the property owner while requiring the lessee to sign off on the owner's application for the exemption will prompt a conversation between the two parties and allows for the creative flexibility that is needed in communities around the state.

Position: Support
Sponsors: Reps. Roberts & Van Winkle, Sens. Donovan & Smallwood
Final Status: Awaiting Governor's Signature

HB22-1051, Modification Affordable Housing Tax Credit

HB 1051 extends the availability of the state's low income housing tax credit (aka LIHTC) from 2024 to 2031 (as opposed to 2034 which was the proponent's original desire). These credits are typically coupled with other forms of financial incentives – such as the federal LIHTC, deferred development fees and Private Activity Bonds – in order to build housing for residents with incomes below the area median income.

Position: Support
Sponsors: Reps. Bird & McKean, Sens. Zenzinger & Hisey
Final Status: Awaiting Governor's Signature

HB22-1062, Expand Sales and Use Tax Exemption for Food

Currently, food purchased at grocery stores and other markets that's intended for home consumption is exempt from the state's sales tax. This is also one of eleven optional exemptions that counties can choose to adopt.

HB 1062 would have expanded this sales and use tax exemption to include foods prepared for on-site consumption. This would have included food sold at restaurants, packaged sandwiches sold at grocery stores and other foods that can be carried out and consumed without additional cooking or preparation. Alcoholic beverages would have still been taxable under HB 1062, in addition to candy and soft drinks.

HB 1062 would have fiscally impacted the 20 counties that have chosen to exempt food for home consumption. The policy change in HB 1062 would have broadened the type of 'food' that was subject to their already adopted exemption thereby reducing their sales tax base and corresponding sales tax revenue.

Position: Oppose

Sponsors: Rep. McKean, Sen. Hisey

Final Status: Postponed Indefinitely

HB22-1117, Use of Lodging Tax Revenue

HB22-1117 is one of CCI's eight legislative priority bills for 2022. The bill modifies **two** existing tools (Local Marketing Districts & County Lodging Tax) and empowers local voters to identify how their county lodging tax revenues should be invested.

Specifically, HB 1117 now allows local voters to direct lodging tax revenues to housing and childcare needs as well as to investments that enhance the visitor experience. If a community wishes to revisit where and how their lodging taxes are invested, they must continue to commit at least 10% of the revenue to marketing and advertising efforts.

Position: Support

Sponsors: Reps. Roberts & Catlin, Sens. Coram & Donovan

Final Status: Signed by Governor

HB22-1223, Mobile Home Property Tax Sale Notice and Exemption

As amended in committee, HB 1223 creates a property tax exemption for mobile homes and manufactured homes that have an actual value of \$28,000 or less. The bill also eliminates the requirement for a county treasurer to publish a notice in a newspaper of a sale of a mobile home or manufactured home due to property taxes owed if the county treasurer publishes the notice on the treasurer's website and a distraint warrant has been delivered to the mobile/manufactured home owner.

CCI opposed HB 1223, in large part, because it is unconstitutional. The constitution only exempts public property (Article X, section 4) and property used for religious worship, schools and charitable purposes (Article X, section 5) from property tax. All other properties are taxable.

Position: Oppose

Final Status: Awaiting Governor's Signature

[HB22-1277](#), **Authorize Credit Unions to Hold Public Money**

HB 1277 would have amended the public entity statutes to allow any financial institution that is federally insured – including credit unions – to deposit public dollars (including county revenues). The bill would have specifically amended the Public Deposit Protection Act (PDPA) to include credit unions.

Position: Monitor

Sponsors: Reps. Mullica & Neville, Sen. Gonzales

Final Status: Postponed Indefinitely

[HB22-1296](#), **Residential Real Property Classification**

HB 1296 codifies existing practice whereby nursing homes are classified as residential for property tax purposes. When assessors classify properties, they look at the predominant use of the property. The vast majority of nursing homes in the state are already classified as residential. Some nursing homes have a separate wing dedicated to rehabilitation and/or convalescent care. In other cases, a nursing home facility might operate out of an office building whereby other portions of the building include an optometrist, dentist or other uses. In these cases, an assessor might classify the property as ‘mixed’ and assess the rehabilitation/convalescent care portion of the operation as commercial and the nursing home portion as residential. Nothing in HB 1296 will preclude a ‘mixed’ classification for properties that warrant it.

HB 1296 was amended to clarify that a ‘nursing home’ must meet the definition of a ‘nursing care facility’ as set forth in the Department of Public Health and Environment Regulations. Amendments also clarified that a nursing home is a ‘residential improvement’ (for classification purposes) regardless of the length of stay (above or below 30 days). This is in accordance with recent Board of Assessment Appeal and Court of Appeal rulings on this topic.

Position: Support

Sponsors: Reps. Mullica & Van Winkle, Sen. Priola

Final Status: Awaiting Governor’s Signature

[HB22-1301](#), **Controlled Environmental Agricultural Facility As Agricultural Property**

HB 1301 exempts the business personal property (bpp) in a “controlled environment agricultural facilities” (“CEAs” - think greenhouses) from local taxation.

The following conditions **must be met** to secure the exemption under HB 1301:

- 1.) The business personal property is used solely for planting, growing or harvesting crops in a raw or unprocessed state. This could include shelves, lighting, overhead sprinklers, etc. (bpp used to process, manufacture and package agricultural products for food and animal consumption would still be taxed)
- 2.) The CEAs must solely grow crops for human or livestock consumption;
- 3.) The CEAs must use hydroponics – as affirmed via an affidavit by the taxpayer – to obtain a profit from the wholesale of plant-based food; **AND**
- 4.) The CEA must provide a license verifying that the crop is hemp and not marijuana

HB 1301 will result in a loss of property tax revenue for local governments. The magnitude of the loss, however, is unknown. The bill was amended, at CCI’s urging, to include a repeal date in five years (January 2023 to January 2028) so that the local loss in tax revenue could be reviewed by future legislatures.

Position: Oppose
Sponsors: Reps. Soper & Roberts
Final Status: Awaiting Governor's Signature

SB22-051, Policies To Reduce Emissions From Built Environment

SB 51 contains a series of preferential tax exemptions for specific products and equipment to help promote their purchase and address climate change.

Specifically, the bill creates a 10 year income tax credit that amounts to 10% of the cost of a heat-pump system or heat pump water heater for both residential and commercial property owners.

SB 51 also exempts heat pump systems and heat pump water heaters from the state's sales tax for both residential and commercial property owners. This includes 'energy storage systems' which would cover the purchase of batteries and batteries paired with on-site generation. SB 51 allows local governments to adopt these exemptions if they so choose.

Finally, SB 51 exempts decarbonizing building materials such as asphalt, cement, glass, post-tension steel, reinforcing steel, structural steel and wood structural elements from the state's sales tax. SB 51 allows local governments to exempt decarbonizing building materials from their local sales tax if they so choose.

SB22-215, Infrastructure Investment And Jobs Act Cash Fund

SB 215 is a Joint Budget Committee bill that earmarks roughly \$80 million in state general funds to serve as the potential 'non-federal' match for projects in the Infrastructure Investment and Jobs Act (IIJA). (Only \$60m will be available via SB 215. The remaining \$20m will become available in the SFY 2023-2024 fiscal year)

Colorado's legislative and executive branch are anticipating a boat load of funding opportunities resulting from the IIJA. The federal government is currently working through the rules and regulations that will be associated with the new programs and funding opportunities authorized under IIJA. Many of these new opportunities are expected to require a non-federal match.

The roughly \$80 million authorized under SB 215 is tentatively planned to be used as follows:

- 1.) \$28m for transportation projects;
- 2.) \$20m for water, environmental and resiliency programs;
- 3.) \$20m for power, grid, and broadband programs;
- 4.) \$8m for local match support; and
- 5.) \$4m for grant writing support, administrative support and project planning.

Starting October 1, 2022, SB 215 requires Governor's office to report out on the amount of funding awarded out of the \$80m, the federal funds anticipated to be received, and the process the Governor's office establishes to receive and review applications for the funding.

SB22-238, 2023 & 2024 Property Tax

SB 238 was the result of a 'deal' struck by the Governor, Legislative Leaders and proponents of various 2022 ballot measures that would have impacted local property tax revenues that counties, special districts, junior colleges, schools and cities rely on.

SB 238 does three main things:

- 1.) further reduces the assessment rates for various property subclasses for the property tax year 2023 (payable in 2024);
- 2.) extends the duration of the lower assessment rates out another year (i.e. reductions end in property tax year 2025 – payable in 2026); and
- 3.) partially/fully backfills local governments for their lost revenue due to the assessment rate changes over the next 2 years.

CCI has prepared the following chart to explain the details of SB22-238. [You can access that chart here.](#)

HB22-1282, The Innovative Housing Incentive Program

HB 1282 is a priority bill from the ARPA Affordable Housing Transformational Task Force (AHTTF) that allocates \$40 million to provide working capital grants, incentives for per-unit development, and loans for factory development available to innovative housing businesses in Colorado. These businesses include those with 500 or fewer employees that manufacture modular, pre-fabricated, kit, 3D-printed, and other innovative and affordable forms of housing.

Working capital grants will be available to cover up to 20% of operating capital expenditures (including payroll, inventory, materials, etc.). These grants will be \$50,000 minimum, and \$75,000 minimum for businesses located in coal transition communities or other communities as identified by the Office of Economic Development and International Trade (OEDIT), in consultation with industry experts and stakeholders.

Per-unit incentives will be performance-based and available to units manufactured and installed in Colorado, excluding units installed in mobile home parks owned by for-profit entities. This will include a base incentive determined by the unit's affordability to the end user, with additional "plus-up" incentives for units:

- Installed in areas of the state with limited economic opportunity, inadequate or poor-quality housing, a lack of housing inventory, or other economic challenges.
- Meeting resiliency criteria, such as fireproofing
- In compliance with international energy conservation code requirements
- That are energy efficient in addition to the ICC energy code

Loans will be available to fund innovative housing factories. Factories must produce a certain percentage of affordable units to be installed in the state to qualify for loans. Priority is based upon:

- Applicant's willingness to dedicate a portion of its production for purchase by nonprofit or public housing agencies that provide affordable homeownership opportunities, including opportunities for opportunities that are affordable in the long-term, at a reduced margin
- Applicant's operational capability and financial viability
- Applicant's commitment to production of affordable housing units within proposed factory
- Economic impact of the proposed factory in the community where it will be located
- Level of subsidy required by the applicant in the interest rate structure, degree to which loan is forgivable, position in the capital stack, etc.
- Applicant's commitment to production of energy efficient units

Position: Support

Final Status: Awaiting Governor's Signature

HB22-1304, State Grants Investment Local Affordable Housing

HB 1304 implements a funding recommendation from the Affordable Housing Transformational Task Force (AHTTF) by creating two new state grant programs available to local governments and non-profit organizations for affordable housing projects.

The **Local Investments in Transformational Affordable Housing (LITAH) Grant Program** would receive \$138 million from State American Rescue Plan Act (ARPA) funds and would be administered by the Division of Housing (DOH) in the Department of Local Affairs (DOLA). This program would be available to fund:

- Infrastructure projects tied to affordable housing development
- Construction costs, land acquisition costs, tap fees, building permits, impact fees, and other construction costs
- Gap financing for housing development projects (including transactions under federal LIHTC program and the affordable housing tax credit, for the purchase or conversion of existing affordable housing and multi-family developments, land, and buildings)
- Preservation, restoration, retrofitting, renovation, capital improvement, and/or repair of current affordable housing stock, including public housing, with commitments for long-term affordability.
 - o These investments can include but are not limited to:
 - Senior housing
 - Remediation of low-quality and condemned properties
 - Housing for people living with disabilities
 - Purchase and transition of current housing stock, including short-term rentals, into affordable long-term units
 - Rental assistance for households disproportionately impacted by the COVID-19 pandemic, including funding for outreach, housing navigation assistance, and legal services
 - Financing energy improvements in single-family and multi-family affordable housing for existing and new homes and rental units.
 - Property conversion for transitional or long-term housing
 - Permanent supportive housing and supportive services
 - Land banking and land trust strategies for long-term affordable housing planning and development
 - Funding for eviction legal defense

In administering the LITAH program, the bill directs DOH to give preference to grant applications that promote one or more of the following goals:

- Increase the supply of housing that is
 - o Restricted at income levels demanded by the local workforce
 - o Transit-oriented
 - o Restricted to persons with disabilities, or to victims of domestic violence or sexual assault
- Leverage capital and operating subsidies from various public and private sources
- Involve the purchase of real property necessary to secure land areas needed for future development
- Represent a one-time funding proposal to the state with minimal or no multi-year financial obligations
- Provide mixed-income developments based on local need

The bill directs DOH to define urban, rural, and rural resort counties per the [Strategic Housing Working Group Report](#). Urban counties will have an 80% AMI cap for rental projects, 140% AMI for rural counties, and 170% for rural resort counties. A 140% AMI cap will be applied statewide for for-sale projects. All counties will be able to apply to DOH for re-classification into a different region, or for higher AMI caps based on demonstrated needs.

The bill requires a 50/50 geographic split of funds through December 2023 (50% total to urban counties, 50% to rural/rural resort counties) given that a large majority of state affordable housing funds have historically gone to the metro area. In the final year the funds can be expended (through the end of 2024), the geographic split is nullified.

The bill also creates the **Infrastructure and Strong Communities (Strong Communities) Grant Program** that would receive \$40 million in state General Fund and be administered by the Division of Local Government (DLG) in DOLA. This program would be available to municipalities and counties for infill infrastructure projects that support affordable housing. Grant awards are available to cover planning, infrastructure, and local capacity expenses, and for developments of unused or underutilized land within existing development patterns.

DLG is directed to coordinate with stakeholders, the Colorado Department of Transportation (CDOT), and the Colorado Energy Office (CEO) to identify sustainable development patterns and best practices.

This list of best practices is intended to address or promote one or more of the following:

- Enable accessory dwelling units or the use of multiplexes by right in residential zones
- Zoning for mixed-use higher density development in downtown areas of municipalities and around transit stations
- Annexation policies
- Intergovernmental agreements that coordinate future development
- Reduced parking requirements
- Relaxed occupancy rules
- Budgeting policies
- Water rate structures
- Road standards
- Hazard risk reduction and mitigation standards
- Energy efficient building codes
- Zoning for innovative housing options, including modular, manufactured, and pre-fabricated homes

All grants awarded through the Strong Communities Program must be used, in whole or in part, to fund infrastructure projects that (1) are within or adjacent to a downtown, core business district, or transit-oriented development OR (2) assist in increasing the supply of affordable housing. Rental and for-sale projects are limited to 140% AMI, or 160% for for-sale projects in rural resort counties. The bill specifies that a portion of any grant through this program can be used for delivery, planning, and community engagement, and encourages a portion of any grant to be used for accessibility improvements or amenities that make the project age-friendly and accessible to people with disabilities.

Sponsors: Reps. Esgar & Roberts, Sens. Winter & Donovan

Final Status: Awaiting Governor's Signature

SB22-159, Revolving Loan Fund Invest Affordable Housing

SB 159 implements a funding recommendation from the Affordable Housing Transformational Task Force (AHTTF) by creating a revolving loan fund administered by the Division of Housing (DOH) in the Department of Local Affairs (DOLA) for affordable housing projects. The loan program receives \$150 million to provide flexible, low-interest, and below-market rate loan funding to assist in the development of affordable housing in a manner that generates enough return on loans to replenish the program for future loan awards.

The bill authorizes DOH to contract with a third-party entity to administer the loan program, and may also work with the Colorado Housing and Finance Authority (CHFA).

The loan program is available to local governments (including housing authorities), for-profit developers, or non-profit organizations to fund projects up to 120% of the area median income (AMI) statewide, and 140% AMI for rental projects and 160% AMI for homeownership projects in rural resort counties. All counties and municipalities will have the ability to apply to the Division of Housing for projects above the cap based on demonstrated need.

Loan applicants must demonstrate how they are leveraging other funds with loan funds, including funds from financial institutions, and projects awarded a loan must do one or more of the following:

- Develop infrastructure to offset construction and predevelopment costs
- Provide gap financing for housing development projects (including transactions under federal LIHTC program and the affordable housing tax credit, for the purchase or conversion of existing affordable housing and multi-family developments, land, and buildings)
- Maintain existing affordable housing through preservation, restoration, retrofitting, renovation, capital improvements, and/or repair of current affordable housing stock, including public housing, with commitments for long-term affordability. These investments can include but are not limited to:
 - o Senior housing
 - o Remediation of low-quality and condemned properties
 - o Housing for people living with disabilities
 - o Purchase and transition of current housing stock, including short-term rentals, into affordable long-term units
 - o Rental assistance for households disproportionately impacted by the COVID-19 pandemic, including funding for outreach, housing navigation assistance, and legal services

- Financing energy improvements in single-family and multi-family affordable housing for existing and new homes and rental units.
- Property conversion for transitional or long-term housing
- Permanent supportive housing and supportive services
- Land banking and land trust strategies for long-term affordable housing planning and development
- Funding for eviction legal defense
- Finance energy improvements in affordable housing to provide funding for incremental up-front costs of installing efficient, electric equipment and renewable energy systems for both existing and new housing.

In administering the loan program, the bill directs DOH to give preference to applications for projects that:

- Are located in communities that
 - Face barriers to accessing capital from traditional sources
 - Have suffered significant negative financial or other impacts resulting from the COVID-19 pandemic
 - Are otherwise underserved
- Align with other state economic development efforts
- Create permanently affordable home ownership opportunities
- Are highly energy efficient or use high-efficiency electric equipment for space and water heating.

Final Status: Awaiting Governor's Signature

SB22-232, Creation of Colorado Workforce Housing Trust Authority

SB 232 creates a special purpose authority called the Middle-Income Housing Authority similar to the Colorado Housing and Finance Authority or CHFA. This new authority would use tax-exempt bonds to purchase, build, rehabilitate, own, operate, and finance affordable rental workforce housing projects in the state.

The authority would solicit project proposals from local governments, housing authorities, nonprofit organizations, real estate professionals, fees would be limited to the same as Low Income Housing Tax Credit (LIHTC) projects, and area median income (AMI) caps for projects will be set as they were in the SB 159. The bill allows local governments to request exceptions to the AMI caps, and also requires the Authority to give preference to projects that propose at least 30% of units to be available to individuals and families making 80% AMI or the lowest possible AMI. Unlike CHFA, completed projects would be owned in perpetuity by the Authority.

The Authority would be governed by a board of directors appointed by the Governor with the consent of the Senate, made up of:

- At least one member with experience in developing rental housing, one in real estate transitions, and one in public finance,
- At least one member from a local housing authority, a county commissioner, and a municipal elected official
- One nonprofit that develops workforce housing and

- A representative from the Office of Economic Development and International Trade (OEDIT)

The Board is given various authorities in the bill, including the authority to:

- Issue bonds payable solely from revenues from affordable rental housing projects and with no recourse to the state
- Purchase, lease, lease with an option to purchase, trade, exchange, or otherwise acquire, maintain, hold, improve, mortgage, lease, encumber, and dispose of real property and personal property, and any interest on such amounts, including easements and rights of way
- Enter into public-private partnerships and to contract with experienced real estate professionals to develop and operate affordable rental housing projects
- Employ its own personnel or contract with public or private entities for services necessary or convenient
- Provide assistance to tenants in its rental housing to enable a transition to home ownership
 - o May take the form of a grant, subordinated loan, or an interest in residential property purchased by the tenant

The bill authorizes no more than 40% of any project by the Authority to be market-rate, and rent set by the Authority must be at least 10% below market rental rates. In the initial pilot phase, the Authority must select projects that develop no more than 3,500 units, and the bill specifies that these pilot projects must have geographic, income, and project-size diversity and be proposed by a variety of developer entities including nonprofits, housing authorities, for-profit developers, or local governments.

Local governments must opt-in in order for the Authority to consider projects in their jurisdiction. The bill requires the Authority to provide notice to local governments where a proposed project is located within 14 days of receiving a project proposal. The county or municipality may object to a project at any time within 90 days of receiving the notice, and must provide the reasons why the proposed project is not feasible. During the 90 day period, the Authority is directed to work in cooperation with overlapping local governments to negotiate the details of a project proposal (tax exemption, payment in lieu of taxes, location, number of units, etc.). The bill directs counties and municipalities in which a proposed project is located to solicit feedback from other local governments in the area to determine the impact of the proposed project. The Authority may not select a project if the county or municipality objects to it in the 90-day period, or it must request that the proposal be re-submitted for re-consideration, taking into account the local governments' feedback.

The bill specifies that any property sold by the Authority or otherwise not owned by the Authority becomes subject to all taxation again. Furthermore, when the Authority wishes to sell a project, it must notify relevant public entities, including state agencies, local governments, and public housing authorities, and provide the entities 90 days to submit a proposed purchase and sale agreement. After the 90 days, the Authority may advertise the sale more broadly and must favor buyers that agree to maintain the project as affordable housing.

HB22-1028, Statewide Regulation of Controlled Intersections

HB 1028 allows cyclists statewide to treat stop signs as yield signs, red lights as stop signs and yield at traffic light intersections if they are making a right-turn. The discretionary authority in the bill applies only to riders who are 15 or older or are accompanied by an adult. The bill also allows local jurisdictions to post traffic signs at controlled intersections that require riders to come to a full stop.

HB22-1046, Local Designation of Over-Snow Use Only on County Roads

In many rural counties, certain county roads are not maintained in the winter and over time have become popular recreational routes for cross country skiing, snowmobiling and fat bike riding. HB 1046 establishes explicit authority for counties to designate all or a portion of a county road for over-snow use during winter months. The bill does not affect the ability of counties to enter into winter maintenance agreements with landowners. This legislation was a CCI Priority for 2022. CCI has prepared a fact sheet on the bill.

Position: Support (CCI Legislative Priority)
Sponsors: Reps. McLachlan & Catlin, Sen. Winter

HB22-1306, Broadband Deployment Grant Processes

HB 1306 makes changes to current broadband statutes to align them with federal regulations, thereby allowing the Broadband Deployment Board to begin awarding \$35M in American Rescue Plan Act (ARPA) funds to broadband providers. The bill also streamlines some existing grant review processes and extends the time for broadband deployment projects to take into account supply chain delays.

Position: Support
Sponsors: Reps. Titone & Baisley, Sens. Bridges & Priola
Final Status: Awaiting Governor's Signature

HB22-1351, Temporarily Reduce Road User Charges

HB 1351 extends the current temporary reduction in FASTER fees and delays the onset of the road usage fee (created in SB21-260) until April of 2023. The bill contains a backfill so that local and state HUTF are held harmless.

Position: Support

Sponsors: Reps. McLachlan & Roberts, Sens. Pettersen & Hinrichsen

Final Status: Awaiting Governor's Signature

SB22-001, Crime Prevention Through Safer Streets

SB 1 creates a new \$10 million grant program for local governments in the Department of Public Safety (DPS). The grants would be for physical improvements to streetscapes (such as better lighting, territorial reinforcement, landscaping, access control, improved trash collection and better space management approaches) to enhance public safety and reduce crime. It also creates an advisory committee to review grant requests and make recommendations to the executive director of DPS. The advisory committee has seats for an urban and a rural elected official.

Position: Support

Final Status: Awaiting Governor's Signature

SB22-016, Modifying Transportation Commission Governance Structure

SB 16 would have changed the current makeup of the governor-appointed Transportation Commission by instead having one commissioner member elected by each congressional district and one commissioner elected at-large. This new Transportation Commission would have been empowered to then appoint the executive director of CDOT. County commissioners were concerned that this new makeup would reduce the number of commission members from the Western Slope of Colorado from three to one. The bill was postponed indefinitely in the Senate Transportation and Energy Committee.

Position: Oppose

Sponsor: Sen. Scott

Final Status: Postponed Indefinitely

SB22-083, Broadband Provider's Use of CDOT Right-of-Way

SB 83 addresses issues with utilizing CDOT rights-of-way to expand broadband service around Colorado. The bill directs CDOT to create a uniform fee structure for non-governmental applicants seeking to utilize CDOT rights-of-way.

Position: Support

Sponsors: Sen. Coram, Reps. Catlin & Bird

Final Status: Signed by Governor

SB22-123, Temporarily Exempting FASTER Fees

SB 123 would have exempted citizens from having to pay the various late fees, fines and surcharges for late titling of vehicles and trailers between 2021 and 2023. The bill directed the Department of Revenue to reimburse citizens who paid these fines between 2021 and 2022. Finally, the bill required the state to backfill the Highway Users Tax Fund (HUTF) for lost revenue from these FASTER fines and surcharges – essentially holding local governments and CDOT harmless.

Position: No Position

Sponsors: Sens. Lundeen & Woodward

Final Status: Postponed Indefinitely

SB22-180, Transit Grants to Provide Free Ridership During Ozone Season

SB 180 creates a grant program in the Colorado Energy Office to provide funding to transit associations to provide free transit services during ozone season (defined as June 1 – August 31) for the next two years. The bill allocates \$58 million to the program to provide grants to state and local transit agencies to offer free ridership during the defined ozone season. The sponsors hope the bill will both reduce ozone levels and incent commuters to return to public transit after ridership fell dramatically during the pandemic.

Position: Support

Sponsors: Sens. Winter and Hinrichson, Reps. Gray and Bacon
