Authorization to Perform Essential Work

As a result of the COVID-19 pandemic, a number of cities and states, including the City and County of Denver and Boulder County, have imposed mandatory stay at home orders. As a public service entity, many Boulder County employees carrying out essential functions are currently still reporting to the workplace to provide vital services to our community.

In order to maintain continuity of the county's critical infrastructure operations including public health, law enforcement, and offices that provide government programs and social welfare services, the county has issued directives addressing the circumstances under which essential county employees may work and commute consistent with CDC guidelines. The county will continue to monitor and ensure that these directives are followed and modified as appropriate as the situation develops.

This **Authorization to Perform Essential Work** letter is being provided only to Boulder County Department of Housing and Human Services staff who must travel for essential government functions, as permitted under multiple local public health orders. If encountered by local law enforcement during the course of their work or commute, county employees shall identify themselves, using their Boulder County employee ID, and explain the nature of their work and travel. They shall also produce this letter as verification of their essential work status as defined by Boulder County.

Attached is a list of authorized employees. Please contact me directly with any questions pertaining to the essential status/work of a specific employee.

Respectfully,

A handwritten signature in black ink that reads "Frank Alexander".

Frank Alexander, Director
Department of Housing and Human Services
