- \$9.2M leveraged to \$36M in value
- Grants to 40+ local groups for 70 different programs and projects
- 60% for Forest Health, 32% for Sustainable Ag and 10% for Rec Management

CHAFFEE COMMON GROUND

Annual Report 2024

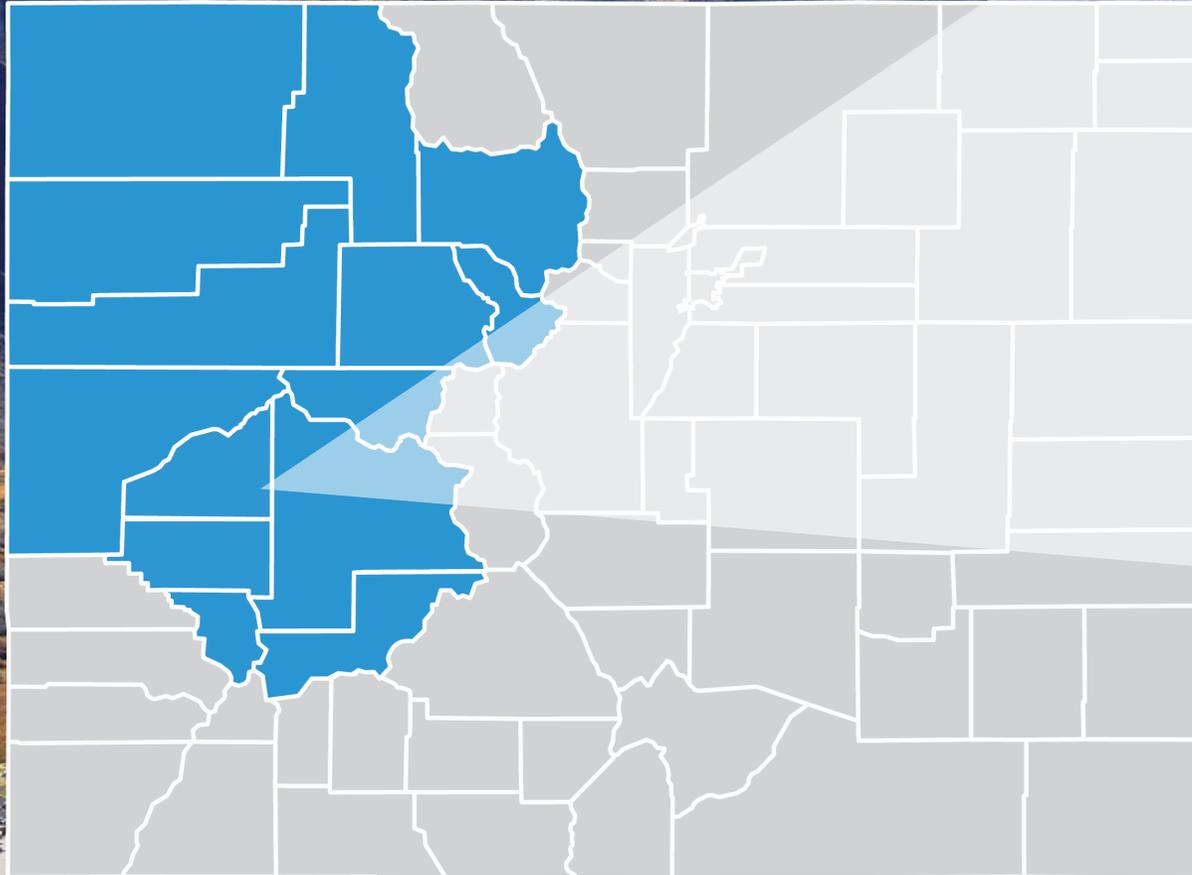

Colorado River District

*Melissa Wills, Community
Funding Partnership Program
Manager*

The Colorado River District was formed in 1937 to lead in the protection, conservation, use, and development of the water resources *and;*

To safeguard for Colorado all waters of the Colorado River to which the state is entitled.

Unaided awareness of the River district as an entity helping protect water resources has remained the same over time.

	2003	2005	2009
US Federal Government	1%	5%	8%
CO river water conservation district or CO river district	7%	7%	7%
BLM	1%	6%	5%
State of CO/state government	2%	6%	3%
County government	2%	4%	2%
City/town government	2%	2%	2%
Other	18%	14%	14%
Cannot think of any	46%	36%	56%

Funding drinking water remained the most important project of the measure.

Recreation aspects lags other uses somewhat.

Projects to Fund Ranked by Extremely/Very Important

	March 2020		June 2020	
	Extremely/ Very Important	Extremely Important	Extremely/ Very Important	Extremely Important
Protecting drinking water supplies for Western Colorado Communities	92%	61%	88%	49%
Protecting water supplies for West Slope farmers and ranchers in order to sustain local food production	88%	50%	87%	48%
Fighting to keep water on the West Slope	89%	55%	85%	46%
Ensuring water security for current and future water users on the West Slope	87%	50%	85%	44%
Maintaining river levels and water quality for fish and wildlife on the West Slope	82%	49%	82%	40%
Ensuring adequate water to support recreation and the businesses who rely on rafters, fishermen, and outdoor recreation enthusiasts	65%	31%	59%	26%

I am going to read a list of projects that could continue to be funded if voters approve this proposal. Please indicate for each one how important it is to you personally that each project be funded: Is it extremely important, very important, somewhat important, or not important to you that funding is dedicated to that purpose?

Financial challenges

In 2018, three key issues came to light:

- **Declining tax revenue from the energy industry**
- **Revenue ratcheting down due to the Taxpayer's Bill of Rights**
- **The Gallagher Amendment's reduction in assessment rates**

In July 2020, the Colorado River District's Board of Directors adopted a resolution to ask voters in November to support a property tax increase to 0.5 mills.

To ultimately..... debruce and create a grant program

2020 Ballot Initiative Language

“Shall the ...Colorado River District taxes be increased by an amount up to \$4,969,041 in 2021 (which increases amounts to approximately \$1.90 in 2021 for every \$100,000 in residential home value)..... by:

- **Fighting to keep water on west slope**
- **Protect adequate water supplies for west slope farmers and ranchers;**
- **Protecting sustainable drinking water supplies for West Slope Communities; and**
- **Protecting fish, wildlife, and recreation by maintaining river levels and water quality;.....”**

Colorado River District

Published by Sprout Social · September 21 at 10:45 AM ·

The Colorado River District's mission is to keep water flowing on the West Slope - to the farms, ranches, towns, reservoirs, rivers and all the people who depend on them. We've been giving Western Slope water a voice since 1937.
