HB 25-1247

Summary of Legislation

Subject to local voter approval, the bill increases the allowed county lodging tax rate to 6 percent and expands the allowed uses of lodging tax revenue to the following additional purposes:

- public infrastructure maintenance or improvements; or
- enhancing public safety measures by funding local law enforcement, fire protection services, and emergency medical services.

For counties that previously received voter approval before January 1, 2025, to allocate portions of lodging tax revenue to different services, the bill clarifies how previously approved allocations are preserved and how revenue attributable to an increase in the tax rate may be allocated by the county.

Background

Under current law, counties may levy a county lodging tax up to 2 percent on the purchases of lodging services including hotels, motels, condominiums, and camping spaces. Revenue from the tax may be used for:

- advertising and marketing local tourism;
- housing and childcare for the tourism-related workforce; and

HB 25-1247

Local Government

Counties that seek and receive voter approval to increase their local lodging tax rate will see increased revenue up to three times the level of current allowed lodging tax revenue.

Municipalities that have a revenue sharing agreement with their respective county may also receive additional revenue. In addition, due to the expansion of allowable uses of lodging tax revenue, counties may have more operating and capital budget flexibility, potentially allowing for expanded local services.
